Don't take a cathartic dose and then stop. Better take a laxative dose each night, just enough to cause one good free movement the day following. You feel better the very next day. Your appetite returns, your dyspepsia is cured, your headaches pass away, your tongue clears up, your liver acts well, and your bowels no longer give you trouble.

For President,

For Vice-President,
ADLAI STEVENSON,
of Illinois.

For Congress,
HON. G. G. GILBERT,
of Shelby.

For Governor,
Gov. J. C. W. Beckham,

The paramount issue in this campaign is imperialism, and well may it be, for we, as a nation, have made greater progress in that direction for the short length of time we've been in the business than any other nation on earth. It is certainly not, according to the teachings of either the Democratic or Republican party, and the idea must have originated in the breasts of those whose sole ambition is greed and power, and not in the breast of a Jefferson or Lincoln. It is incredible to think of a party whose one grand achievement was the freeing of four million Negro slaves should advocate the enslavement of twelve million people, in a great many of whom, the pure blood of the Caucasian flows. A people who had fought and almost gained their freedom from their mother country, sold and bartered like so many Texas ponies. Who but him, whose heart is adamant and whose conscience is seared over with a hot iron, could reconcile the thought of taking the liberty of human beings? But they tell us we are in the civilizing business, and it seems if a fellow won't be civilized any other way, we just take our gun to him and blow him to kingdom come, where he can't help but be a good little fellow. We go upon the theory that all good Philipinos are dead ones, and the sooner we finish up the rest of them the sooner we will get them civilized. Grant that those people are just as bad as the worst reports make them, is it not a greater reason why we should not want anything to do with them? How many poor fellows have lost their lives by Philipino bullets and the fatal diseases of a tropical climate? Many be the poor mother's hearts that is made to break by the news of the death of a darling boy in that far-away clime. Of course, we are going to whip the Philipinos, but it will no doubt take some time, and when we get them whipped they won't stay whipped. And besides it necessitates the keeping of a large army and navy, and no body is so stupid as not to realize the effects of such a course. "Expansion" sounds mighty big and if the present policy of the Government is carried out, it will be the biggest thing the United States ever got hold of—a regular white elephant. It is greatly to be hoped by all liberty-loving people that W. J. Bryan will be the next President of this great country, and forever nip in the bud this growing tendency toward monarchy and despotism. Let every person who holds his country above party join in this good work and help carry into completion.

In his call for an extra session of the Legislature, Gov. Beckham will recommend the passage of a law which will give us school books at reasonable prices. Mr. Goebel advocated such a law during the campaign last fall, and men who couldn't furnish their children school books, or even clothe them decently, condemned it. If Solomon lived at the present time, he would undoubtedly come to the conclusion that there are yet a few new things under the sun, among them the Kentuckian who had rather pay one dollar for a school book than to pay sixty cents. But it is going to the American Book Company, and some of our people delight in helping to feed a week little concern like it. The trouble about the whole affair is, that men allow their prejudices to get the upper hand of their judgment, and don't stop to consider what is to their interests. But, before it is everlastingly too late, people will see the error of their way and vote for the interest of their wives and children.

The Republicans are leaving McKinley like rats deserting a burning ship. One of the latest to desert is United States Senator Wellington, of Maryland, who can't swallow McKinley, Hanna and imperialism. Bah! What a dose for any one, even a cannibal would expectorate freely, if he didn't vomit, to swallow such a potion. Bryan is no doubt laughing in his sleeve to think he has such an easy walk-over. If McKinley would discard Hanna—an impossibility at this stage of the game—and had some one to help him: let loose of the Philippine Islands, and other smaller elephants, he might stand a ghost of a show but as it is the die is cast, his fate is sealed, and in a short time he will be known as a has-been.

THE Republican candidates for Congress in this district are numerous. Every few days a new one bobs up and asks that he be made the sacrifice of his party this fall. Usually there is some honor in running for Congress, even if the other fellow is elected; But when Gilbert gets through with his opponent this time, he will almost wish he never had been. Bradley is the only Republican that we can think of right now in this district, who would make a good Congressman, if elected, and he had knowledge enough to read the hand-writing on the wall, and said, (to himself). "No. thank you, I don't care to be defeated this fall." Let Davison run, and draw his little pension of twenty-five hundred again.

It appears that New Jersey and New York City, as well as Kentucky, are in the assassination business, even, furnishing an assassin to put the King of Italy out of the way. While Kentucky is, as has been thoroughly demonstrated, well supplied, the field of operation is not so broad as that of New Jersey.

The laws of health require that the bowels move once each day and one of the penalties for violating this law is piles. Keep your bowels regular by taking a dose of Chamberlain's Stomach and Liver Tablets when necessary and you will never have that severe punishment inflicted upon you. Price, 25 cents. When Gov. Mount, of Indiana, hastily declared that he would not surrender W. S. Taylor, the fugitive spurious Governor of Kentucky, on a requisition from the lawful Governor of that State, he little appreciated the trouble he was bringing on himself. He now realizes his mistake. It is reported that Taylor is becoming decidedly uneasy as to the safety of his sojourn in Indiana. He is a most unwelcome guest to the Republicans of that State. He may be warned to leave if he wants to escape extradition. But where will he go? Will the republican Governor of any other State accept him as a political guest and give him protection from justice?—[Chicago Chrysalis.]

A MINISTER'S GOOD WORK

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured. I think it the best medicine I have ever tried." For sale by Theo. Wesley Druggist.

JUDGE CARTER DEAD.

The sad news, of the sudden death, of one of our oldest citizens, threw our little town into mourning Sunday morning. The first thing that met the peoples ears as they passed the Miller House where a large crowd having assembled, some preparing to go to Berea to accompany the remains back to Mt. Vernon, others anxious to know what caused the sad misfortune, was, "Judge Carter is dead." At the time of his death he was in Berea, where he had gone to deliver some degrees in Masonry, one the Easter Star degree to some ladies. He was a Mason of high standing and thoroughly devoted to the workings of that order. He was often heard to say, after he was forced to retire from active life on account of ill health and old age. "I have given up my law practice and every thing else except my Masonry that I will never forsake." For fifty years he had been a member of this order. He was a strict member of the the Baptist church for over 40 year. The funeral exercises took place from the Baptist church Monday at 10 a. m. conducted by the Rev. J. C. Carmical. The burial at 12 m. conducted by the order to which he was so devoted.

LOCAL ITEMS.

Nobody can truthfully say that Beckham was not fairly and honestly nominated for Governor, and no man who ever had a drop of Democracy in his veins can give any sort of a reasonable excuse for not supporting him next fall. They are not trying to do it either. Those kind of men are ill for him, and numbers of them who never voted the Democratic ticket before in their lives are, for it this time. —[Hardin Democrat.

While in Nicholasville last week we had the pleasure of dropping in several times to see our old friend and county man, Frank Wal lin, who is doing a rushing business there in the drug line. His store is on Main street, on the corner next to the court house square, and of all the business houses which we visited, we think Frank has the nicest. He has two and three clerks besides himself busy all the time. On Thursday, he sold something over 1,600 glasses of soda water.

Better let Taylor stay where he is, a coward and a fugitive from justice afraid to stand trial with the other accused. Gov. Goebel's friends and followers do not want vengeance, only justice; but if they sought revenge, it is theirs in full measure, in the spectacle presented by this craven hiding in terror behind the skirts of the Governor of Indiana, who, to defend him, is himself forced to violate the Constitution of the United States and disregard the statute law of Indiana.—[Albany (N. Y.) Argus.

The band boys from here spent two very pleasant days in Nicholasville last week, furnishing the music for the Street Fair, which was a success in every particular. The balloon ascension which took place each day at 3:30 p. m., was the best we have ever seen. The ascent was over a thousand feet. The flour and pie contest which were engaged in only by coons, was a source of great amusement to the entire crowd. The tacky turn-outs were first-class and added greatly to the betterment of the programme. These are a few of the specially interesting things which they had. The last thing

of which we desire to make mention was the public marriage, which took place standing in a wagon, out in the street, just in front of the court house, and at the suggestion of Harry Kline, one of the chief promoters of the enterprise and one of the most enthusiastic ones connected with it. The band, as soon as the ceremony was pronounced, struck up that old familiar tune "There Will Be a Hot Time In the Old Town Tonight," which caused prolonged shouts from the crowd. The crowd then led by the band marched out about three blocks and witnessed the ascension of the balloon; after which the crowd adjourned, every one wishing that the last day was the first.

Although the republicans are not saying much, they are a little blue on account of the extra session of the Legislature called by Gov. Beckham to amend the Goebel election law as on the misrepresentation of this law depends their only hope of success in November. I want the law so amended as to put four men on the county and State boards and have two democrats and two republicans then lets see where the kick will come, but I guess there will have to be four republicans before we can have a fair elections or at least before it will be satisfactory to the republicans.
